Professional Summary

Results-driven software development enthusiast with strong problem-solving skills and ability to adapt quickly in fast-paced environments. Known for a strong work ethic, effective collaboration, and a passion for continuous learning. Eager to contribute technical skills and creative thinking to support business growth and innovation.

Education

B.E. in Information Science and Engineering. (Perusing)
PDA COLLEGE OF ENGINEERING, Kalaburgi – CGPA – 8.6 (3.42/4.0)

Pre-University - RJ PU COLLEGE, Kalaburgi - Percentage – 87.

Class X -CBSE - SWAMINARAYAN GURUKUL INTERNATIONAL SCHOOL, Kalaburgi.

Skills

Technical Skills: Java, Kotlin, Python, C, C++, HTML/CSS, JavaScript, Spring Boot, DSA, AI, ML.
Technologies: Nodejs, Flask, SQL, MongoDB, Full Stack Development, Android Development.
Tools & Software: VS Code, Eclipse, GitHub, Android Studio, Intellij.

Projects

- **FLIGHT PRICE PREDICTOR |Data Science-Based Price Optimization Tool -** Built with Python, Flask, ML, and Data Science based AI model to predict the flight price at the different seasons, featuring EDA, regression models, and a user-friendly interface for real-time fare prediction.
- **AI – POWERED RESUME SCREENING AND INTERVIEW ASSISTANCE | Final Year Major Project**- Developed AI/ML -based model to screen resume and assist in interview virtually readiness using NLP and BERT Techniques. Built Flask-based web interface and integrated automated scoring and instant feedback.
- **SWAD–GHAR–KA RESTAURANT WEBSITE | Food Ordering and Table Booking Platform -** Deployed a dynamic restaurant website using HTML, CSS, and JavaScript featuring menu categories, thali sections and booking the food and table before reaching the restaurant makes it time-effective.
- **GEOLOCATION TRAVEL COMPANION APP |Location-based Android App –** Developed an Android app using Kotlin that tracks and displays real time user location on map interface.

Internship

- **4-Week Internship – Software Development with Java**
  Cognifyz Technologies | Jul 2025 – Aug 2025
  Created a console-based Java application with full CRUD functionality to manage tasks efficiently.
- **2-Months Internship – Cyber Security**
  Codec Technologies | Aug 2025 – Present
  Pursuing a 2-month cybersecurity internship focused on network security, ethical hacking, vulnerability assessment, and security tools such as Wireshark, Nessus, and Burp Suite.

Certification

1. The Joy of Computing Using Python – NPTEL.
2. Full Stack Web development using Python.
3. The Compete Android 14 & Kotlin Development Masterclass.
4. Master Java Visually - Udemy.

Achievements

- **Winner – State- Level (DSA Hackathon-Code Storm),** organized at PDA College of Engineering – May - 2025
- **Top 5 – DSA Hackathon at VTU** Visvesvaraya Technological University – March 2025
